Darwin International Airport landscaping to feature on ABC TV's "Gardening Australia", Saturday 28th June

Landscaping at Darwin International Airport will feature this weekend on the ABC TV show "Gardening Australia". Due to be screened at 6.30pm, Saturday 28th June, the segment covers the established landscaping throughout the Darwin International Airport precinct that exclusively feature native trees and plants.

It showcases different habitats from across the Top End and clearly demonstrates that local natives work well in a variety of relaxed, formal and even tough industrial car-park garden settings.

The entrance to the airport at Bunnings (Osgood Drive) is given particular prominence in this piece by the team at Gardening Australia.
